Please accept my salute to your efforts and of those who are associated with you namely AYUSH department and Quality council of India for starting a much awaited and most required certification Scheme “Ayush Products Certification Scheme, which will not only keep the Herbal and Ayurvedic industry alive but will make a way to reach it to higher quality standards which is presently most lacking in this system and we can be at par with other systems of the world”.

The certification and logos on the products will make the consumers sure that the products are manufactured by the high quality standards and

there is no way of adulteration and substandard substitute which will increase the faith of these products and ultimately the sales of the Products.

It makes answerable to the assessors viz AYUSH, QCI, food cert and the Industry itself for maintaining the quality of the products so four way check is established
